

Radiator Crash Course

7,000,000 road accidents are reported every year in the US¹

40% of these accidents involve the front-end of a vehicle, possibly damaging the radiator

Radiator leaks from the collision

Risk of overheating engine

But be careful...

Cooling system damage might not appear immediately after the impact

Check for unusual brightly-coloured leaks under your vehicle²

(Coolant colour varies for each car company)

A damaged radiator MUST be replaced...
