

CLASSIC CARS

DESERVE PREMIUM PARTS

THE SAME OUT-OF-FACTORY DESIGN AND SPECIFICATIONS FOR THE PERFECT RESTORATION.

- Made with corrosion-resistant, OE-approved steel for durability
- Lock ring included with each tank to reduce installation time and ensure a complete repair
- Each unit is leak-tested after production to ensure product is free from fuel and / or evaporative leaks
- Each new fuel tank is fit-tested and road-tested to ensure an easy installation and real-world performance on these products
- Packaged with heavy-gauge corrugated board to ensure product quality at installation

KEEPING IT CLASSIC?

Use the classic fuel tank option with the original carburetor engine, and find the matching sending unit to avoid contamination.

Part #	Most popular application
F28A	1967 Ford Mustang
F12B	1995 Ford Mustang
GM1A	1981 Chevrolet C10
F1B	1976 Ford F-150
GM11A	1981 Chevrolet C10

CLASSIC CARS

DESERVE PREMIUM PARTS

SAVE REPAIR TIME AND PREVENT CONTAMINATION WITH THIS PRE-ASSEMBLED TANK FOR AN INJECTION ENGINE.

- Application-specific design to ensure a perfect fit guarantee
- OEM fit, form and function paired with today's fuel injection technology
- Fuel tanks made with corrosion-resistant steel
- Proudly manufactured in Canada under stringent quality systems
- Unit is leak-tested after production to ensure product is free from fuel and / or evaporative leaks

UPDATING THE ENGINE?

Swap the carburetor engine for an injection model while keeping the same look of the original part, including a **pre-installed fuel pump and lock ring**.
