

# NEW MASS AIR FLOW SENSOR TECHNOLOGY

The first true aftermarket solution  
for multifunction air intake sensors

- New fully integrated multipurpose sensor technology
  - Designed to detect multiple elements for enhanced performance & accuracy
  - Humidity measurement
  - Additional air intake temperature (IAT-1 & IAT-2)
  - Barometric pressure (throttle inlet air pressure)
- Direct OE-level coverage replacement
- Precisely calibrated ceramic boards
- Platinum connector threads for faster reaction time
