

BUILT FROM THE GROUND UP

Why take the chance with reman?

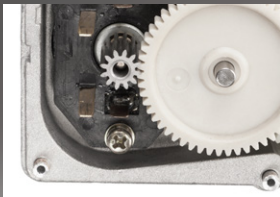

- **100% New**
- No Core Required
- Complete assembly with throttle position sensor for easier single-step installation
- Upgraded to non-contact Hall effect sensor
- Flange gasket included as per OE specification where applicable.

KNOW WHAT YOU BUY

ELECTRONIC THROTTLE BODIES

SPECTRA PREMIUM™	BOARD	DC MOTOR	ASSEMBLY QUALITY	THROTTLE PLATE FIXING BAR	GASKET
	Simple and efficient Hall Effect chip technology, same as OE	Automated manufacturing, same specifications as OE	Same OE features and good durability, does not lose performance over time	Corrosion-resistant aluminum bar	Thicker and more robust gasket with notch
COMPETITOR*	Overly complex chip with poorly executed assembly	Manual soldering with superfluous blades	Poor construction, performance degeneration over time	Steel bar vulnerable to rust	Missing notch and looser fit
					

* Competitive product compared in this study is not representative of all aftermarket competitors' products.
