

WHY WAIT?

When the first coil fails, the others are not far behind.

Covering today's most popular vehicles, Spectra Premium's New Ignition Coil Multipacks offer a brand new coil for each cylinder providing full restoration and savings per unit.

- Premium copper in both primary and secondary windings
- High-voltage enamel coating for premium insulation
- Designed and produced under the strictest quality control processes
- Each coil undergoes Thermal Shock Cycle testing to ensure reliability in all road conditions
